Ex. 5.30 A.

Working on pantry removing window casing and other work. To S.E. Mod Gale

Ltd. 5.45 P.M.

21 Early morning Mod S.E. gale with rain to 11.30. Wind increasing at noon 1 P.M. E.S.E. heavy gale 1.30 Hurricane shifting to S. just before high tide, water rising rapidly to 18" above normal high tide mark. Wind shifted to S.S.W. drove in waves 20 or more feet high breaking completely over island. Sea's nearly broke windows, carried away boat house dock and all equipment boats etc. Coal and wood washed overboard. Fence torn away. All large trees uprooted and a large amount of soil washed away. Largest double oak tree came over easily on top of dwelling and slid partly resting on bell tower causing chain hoist box covering to break away from fog signal building chain helping to hold same in place.

I was alone at the station during the storm, except for one resident of Riverside, who made the island in a highly nervous state, attempting to save his motor boat. With difficulty this man was dissuaded from a futile attempt to try to regain his boat during the violence of the storm, and his fears somewhat allayed.

Started 1:30 P.M. Moderated to S.W. Cldy strong Br. till mid. Hurricane and tidal wave. Water blew up in sheets. Nearly all house washed away on Pomham toward a shore.

He was persuaded to remain at the station until it was safe for him to return to the mainland. During the outbreak of the storm the keeper assisted several small boat owners to secure their boats, which had gone a drift, in the lee of the island, but during the violence of the storm these boats were again tossed a drift.

n.B. Bell was in use during the storm at times when it was thick. I had difficulty in getting back and forth to it - once I was prevented on account of waves.

At work building pantry cupboard when storm broke.

September 22 Calm early morning. Wife returned to station after a narrow escape from flood waters in city. Two hours later son returned with similar experience. About noon St. - ^{S.W.} P.M. Clear all day.

Ex. 531A.
Std 542P

Below many lights damaged some washed away in storm.

Went ashore trying to find lost property. The Socony workmen dragged boat 65 to a safe place after Son + Mr. Cronson and myself got it out from under a tank car on the rail road's property. When my son returned he brought a boat to use here. 10 a.m. Mr. Cronson former keeper found and boat brought to station boat no 151. About this same time sighted tender Skrub which called to see if we were all safe and if we needed anything. and told that many stations had been destroyed. Keeper of Sabio Pt. came along just in time to catch tender. Seeing him on Poth Island I went after him and took him out to tenders, later I lent him a skiff that my boy came over in. With permission from the caretaker.

Sept. 23 Calm & cldy. Shortly after sunrise Tender Anemone called with the Supt. but did not have orders from power boat. 10 a.m. St. S.W. St. rain - cldy. back and forth.

N.B.

Went ashore to make inquiries as to getting help to remove tree. Was told that it would be hard to find experienced men, as they were very busy and a good ^{many} people had left town.

Mod. to Fr. N.E. gale with rain all day and evening. Working in quarters. Sheathing up door way to discontinued pantry and facing same for small dish closet. Reg. Work.

Lt. + Mod. N.W. wind. Clear all day. Went to Fuller Rock Light, found its foundation on top, three stone sections opened up two large stones projecting out badly. Also regular work + cutting wood. Too much wind to work on tree.

Sunday. Fr. to Mod N.E. wind. Clear. Working ^{on} tree all day, with the help of my N.B. son and a man from Riverside we removed tree and roots completely shortly after sunset.

Mod + Fr. N.E. breezes Cool + Clr. Finished tree work today. Reg. + Clearing up grounds. Working on outboard motor as it ^{was} under water for 24 hrs after the hurricane. After cleaning was surprised to get a spark. Although last winter I gave the coil a heavy coat of shellac.

Fr. to Mod N.E. wind to Calm at night. Clear. At work setting ~~light~~ of glass in south bedroom window broken by tree falling.

Mr. Ramsay arrived about 10 a.m. on shore. Went and brought him over to light. He looked over storm damage, took measurements etc. Set him ashore at 1 P.M. about.
